CASH IN ON CHAOS NEWSLETTER - OCTOBER 27, 2000- 2000-10

Dr. Al Larson, aka Hans Hannula, voice 303-452-5566, fax 303-457-9871, email allarson@moneytide.com

Stocks holding after bad month. . Tbond trend near top . IBM breaks hard. Interest rates still congesting. Swiss Franc heads lower. Gold nearing climax. Wheat looking bullish. World markets down except Down Under. Moon tide energy. 2000 forecast revisited.

STOCKS

Stocks dropped sharply as forecast. Now holding up, and may rally.

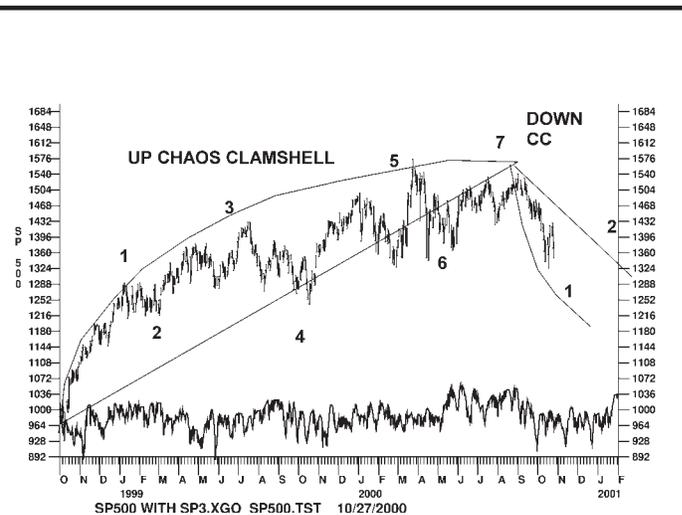

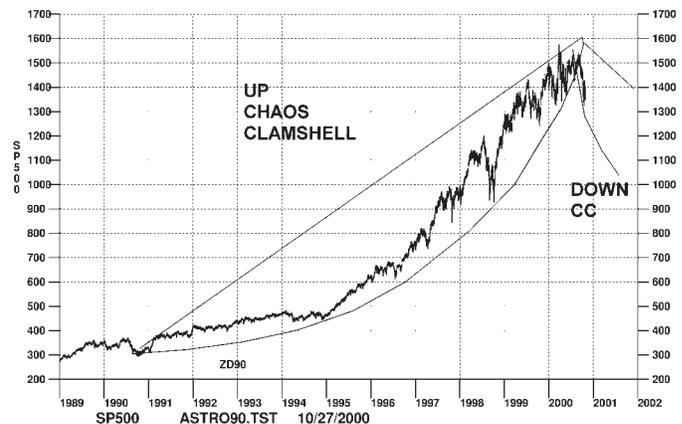

The long term chart shows an up Chaos Clamshell, which has ended. This means that stocks are now in a BEAR MARKET. Within this bear market, the first rally may be beginning.

The near term chart shows the up Chaos Clamshell since last October. That CC ended with a weak move 7.

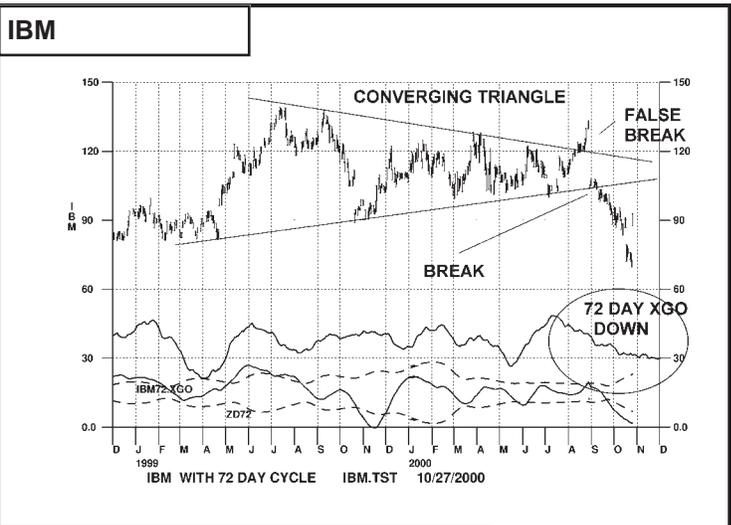

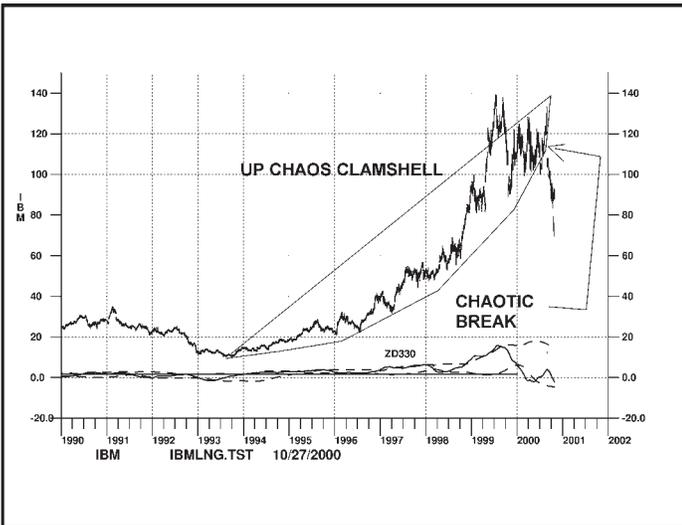

That usually adds strength to the following CC, which in this case is down. In the short term, the Xgo energy curve is bottoming, and showing a rally into February.

Statistically, the best day to buy stocks is November 5th, and sell them February 10th. That pattern fits with a move two up in the new down Chaos Clamshell.

Given the longer term outlook, I continue to suggest not holding stocks right now.

This letter is written by Al Larson, aka Hans Hannula, full time trader, PhD (Electrical and Computer Engineering), RSA, CTA. It incorporates his original scientific research into market chaos, its causes, patterns, and trading techniques. The Chaos Clamshell shown is the unclassified version of the confidential **Hannula Market Fractal**, which is taught in his **Cash In On Chaos** course. **Hot-line updates to this letter are available daily on email as Chaos Trader's Hotline and Tomorrow's Market Hotline available for \$99/Mo., billed for 3Mos.at \$297, renewed automatically.** See page seven for more details.

IBM collapsed as forecast. It is now in it's own bear market.

The long term chart shows the break from the "back porch" pattern. This is clear sign that IBM is headed lower over the coming year.

The near term chart shows the dramatic break, and that the 72 day XGO energy is down. So the message is clear-steer clear of IBM for a while.

For stocks or commodities not covered in this newsletter or on the hotline, you can track the cycles and trade the Chaos Clamshells using the **Trading System Toolkit**.

ECONOMY/RATES

Interest rates have barely budged, as the Fed plays it cool during the election.

The election is very close. By now, the issues have been rehashed, over and over. I'm sure the country will survive either candidate. Personally, I don't think the next 4 years are going to match the last 4, since the Jupiter-Saturn cycle is down. So these wonderful government surpluses may shrine both or disappear. Then neither candidate's plan will work. And there will be a lot of finger pointing and Congressional gridlock.

Meanwhile, my old company, AT&T, is splitting up again. Their colossal plan to buy cable companies, and use cable systems to deliver voice, data, and video has run into problems. Years ago, I worked on Integrated Voice, Data, and Video (IVDV). As one of many things we explored, we looked at using cable TV systems for IVDV. They were expensive and bandwidth limited. We decided there were better alternatives based on telephone style switching and fiber optics. That is still true.

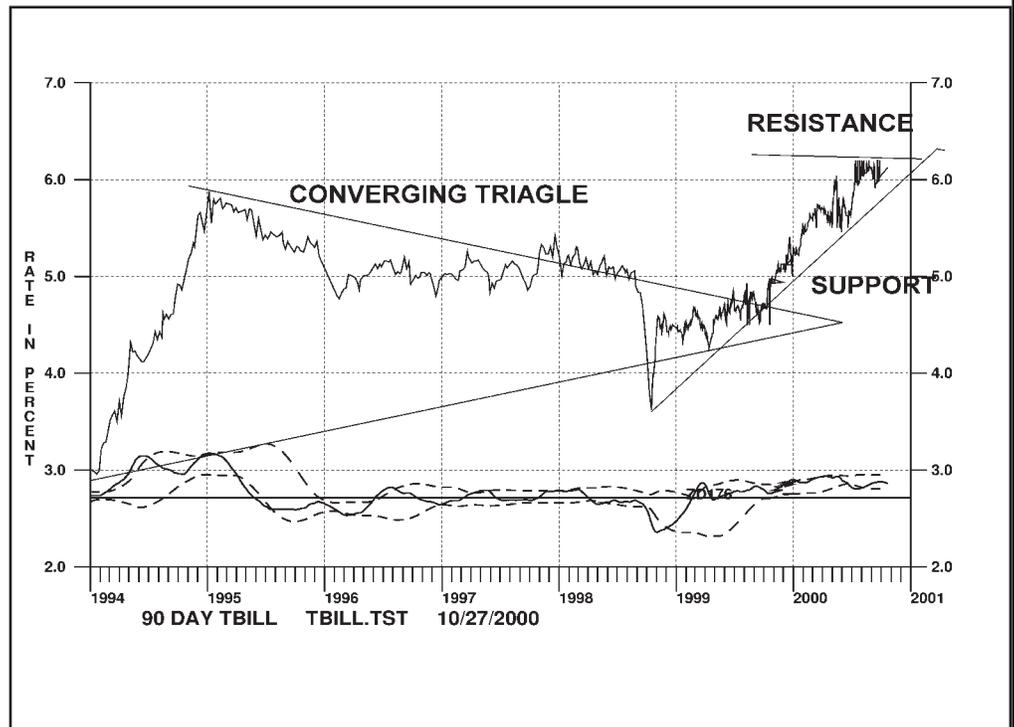

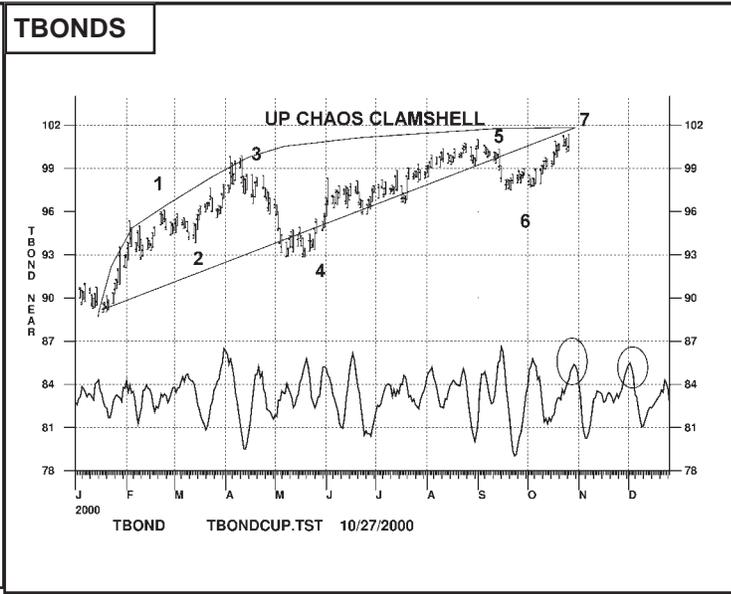

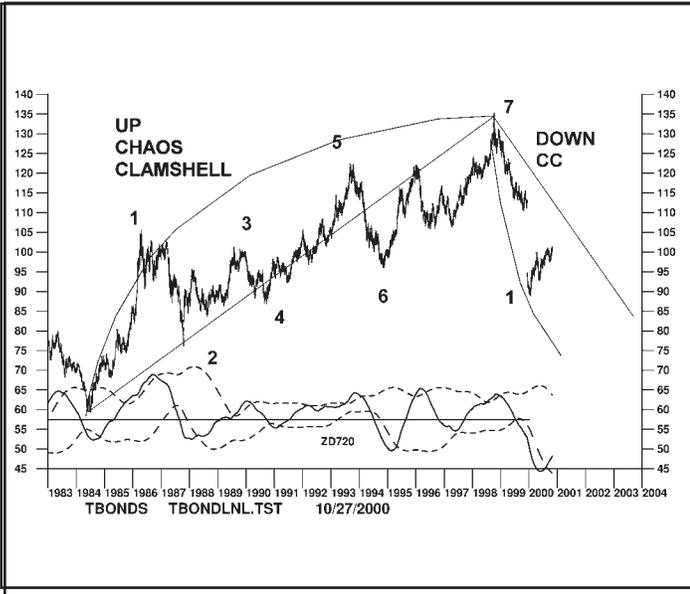

Image creates desire. You will get what you imagine.
 J. G. Gallimore

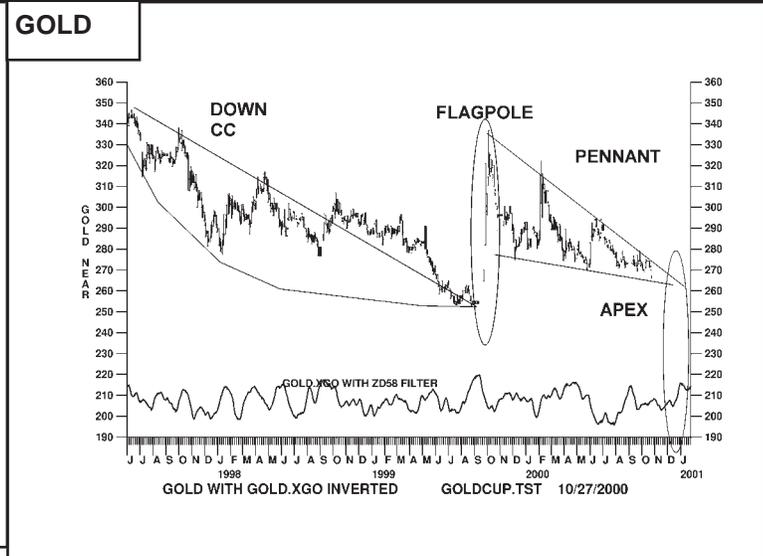

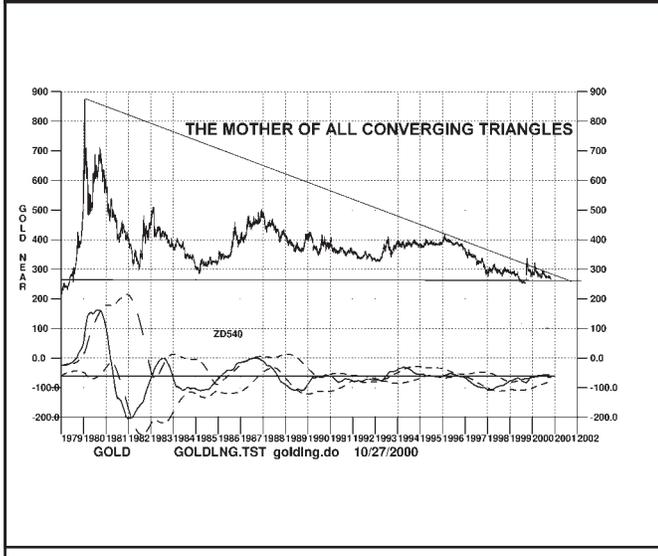

Tbonds are nearing a seasonal peak. The long term chart shows that the current rally is a move two in in a down Chaos Clamshell.

The near term chart shows an up Clamshell, near an end. The Tbond.XGO energy shows tops in early October and November. The October top looks like it will trigger a sharp decline, and the November top another one.

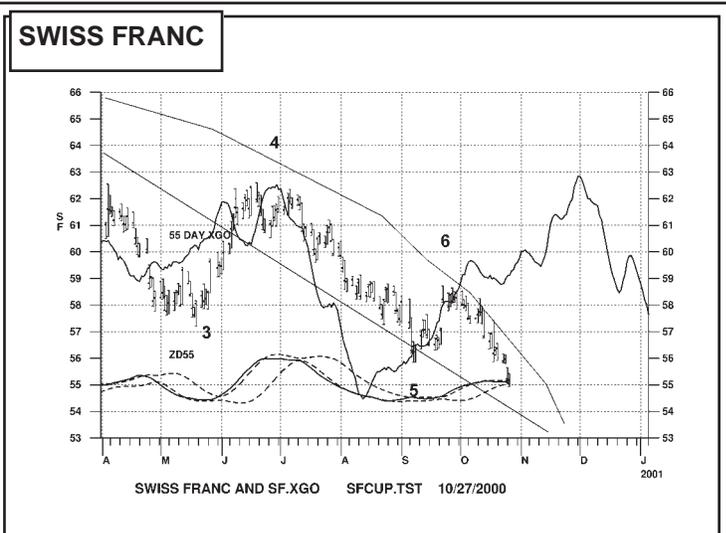

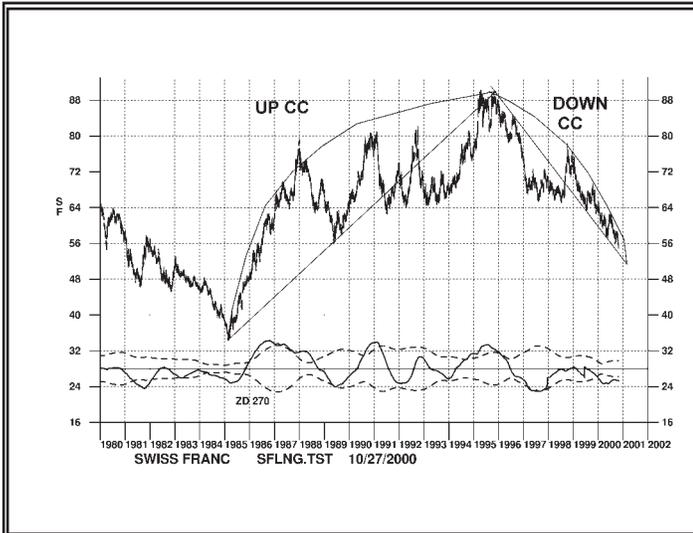

To measure the man, measure his heart.

Malcolm Forbes

Gold continues dull. The long term chart shows the 20 year long Mother of All Converging Triangles.

The short term chart shows that the triangle shaped pennant is nearing an end. This pennant will most likely be followed by another up thrust. The energy curve rises over the next few months. So the odds favor a sudden and unexpected rally in gold.

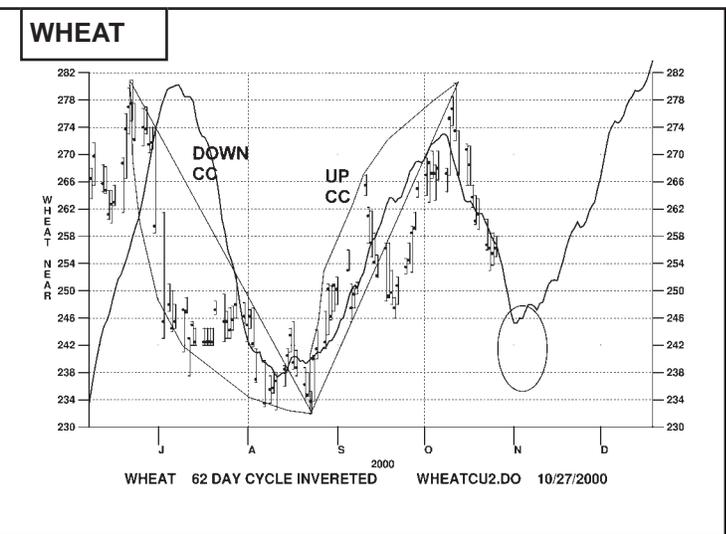

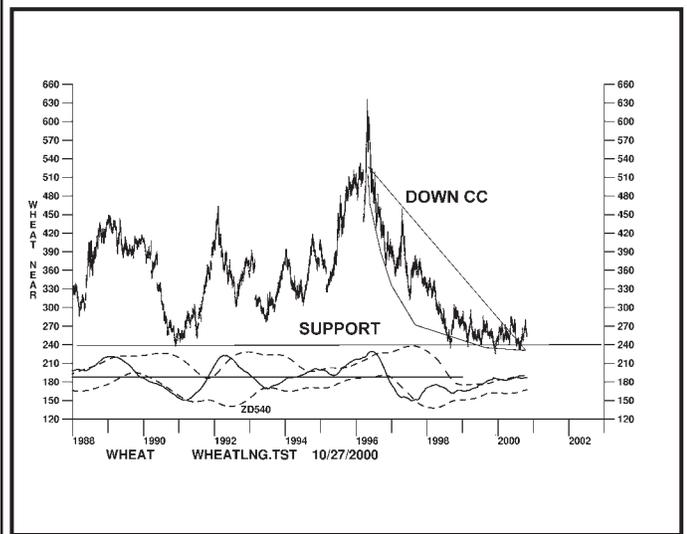

The Swiss Franc broke to a new low, so it is still searching for a bottom.

The near term chart shows a shows the break, which could be part of a move 7 in the down CC shown on the long term chart. The 55 day energy is up, and is now at a low. So look for a rally in the Swissy.

The only limits are, as always, those of vision.

James Broughton

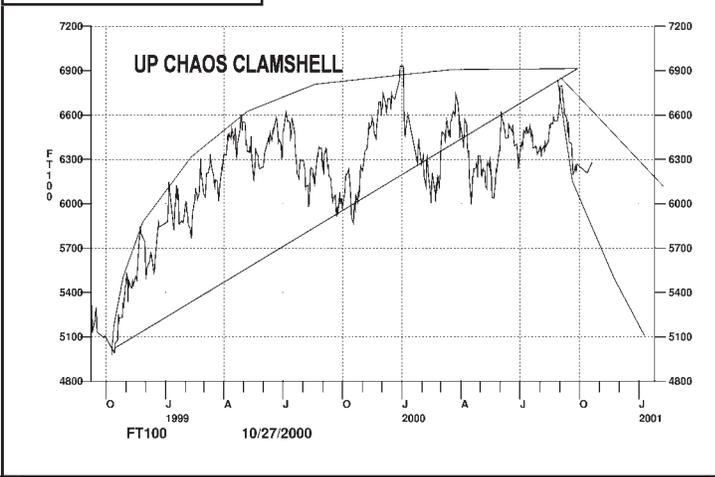

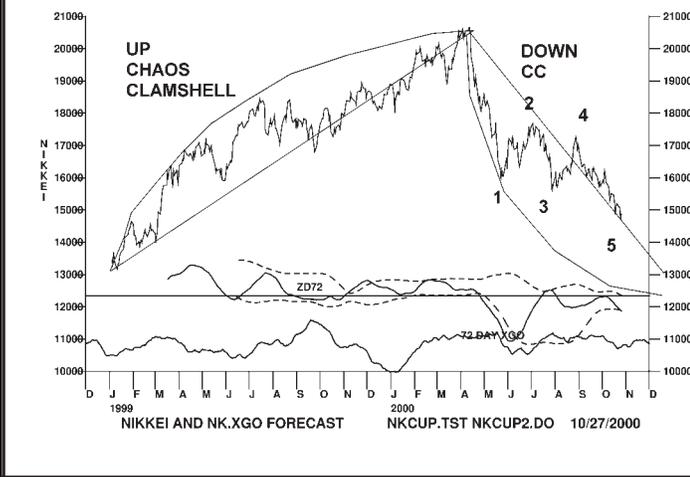

Wheat has probably made a historic low. It has now made four lows in the 240 area. It rallied sharply off the last 240 low, and is now making a higher low, indicating a change in trend.

The near term chart how well wheat has been following the 62 day energy cycle. That cycle topped in early October, and is now forecasting a low in early November. This should be a major buying opportunity.

George Bayer wrote about trading wheat using Mercury, Saturn and Jupiter. You can learn to find astrocycles with the aid of the **Trader's Ephemeris** and the **Finding Astrocycles** video-**JUST \$99.**

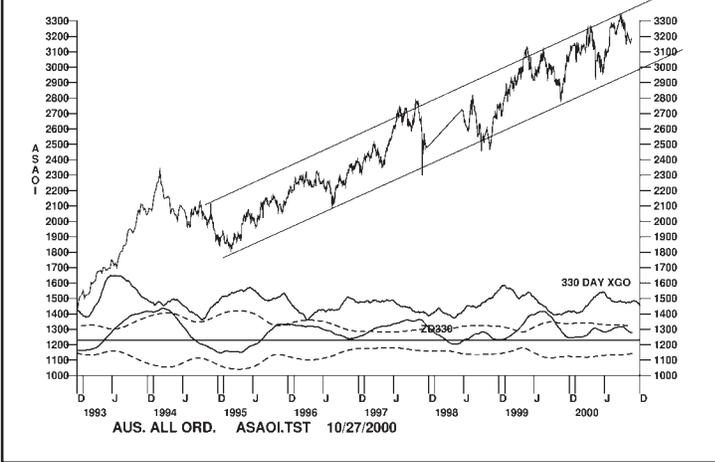

WORLD MARKETS

The Japanese market broke lower as expected. It is in move 5 of 7 in a down Chaos Clamshell. Expect further weakness in that market.

The British market is now in a bear market.

The Australian market remains in an up channel. It did pull back from the top of that channel, but has not broken the bottom of it yet. So it remains in a bull market.

CHAOS CLASSROOM

This chart shows how I use the 6 day MoonTide and the Face of God pattern together.

The 6 day MoonTide is a filtered energy function. It can be computed for any market. The one shown is for the S&P.

The major turns in this energy function should coincide with chaotic Strange Attractors/Strange Repellers (SA/SR). In simple terms, markets move from one SA/SR to the next.

The Face of God pattern is used to zero in on a SA/SR. This pattern shows the planetary causes of a SA/SR. When properly located, it can identify the physical events forming the pattern, and sharpen the timing. That is a great aid in trading.

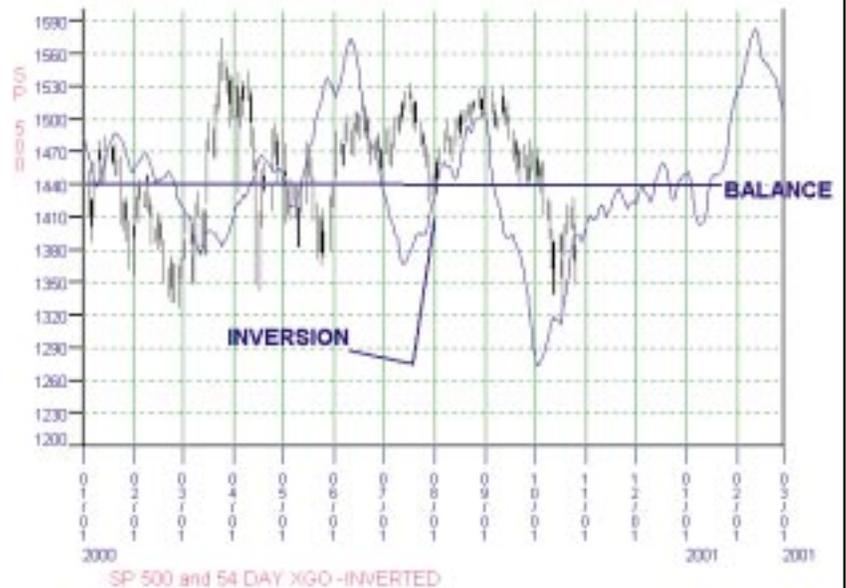

ASTROPHYSICS AND CHAOS THEORY

It is time to revisit the year 2000 forecast.

This forecast is based on a filtered XGO energy curve, with the ZD filter length set to 54 days. That forecast ran inverted in January and February, then ran on the normal forecast for 6 months.

At the start of August, the forecast again inverted. The forecast correctly called the September high, and the sharp decline since then. Now it calls for a return to a balance level. For the year, that has been 1440.

In a peak ahead, the forecast is calling for a good move early next year. Keep in mind that, because of inversions, it could go either way.

ENERGY

A trader must learn to manage his or her energy. One way to do this is to draw energy from nature. I do a lot of that.

When I went to Hawaii, I was on a mission. My goal was to photograph some great tides, to be used in creating a world class MoonTides image.

I have reached that goal. This image is a digital collage of several of my photos. It is being used on my new website as an introduction page. It will also be available as a download, for use as wallpaper on your computer.

I already have it on my computers. Many times during the day I relax a moment, look at the image, and slip back to the Kona coast, and relax to the sounds of the surf.

QUALITY IMPROVEMENT

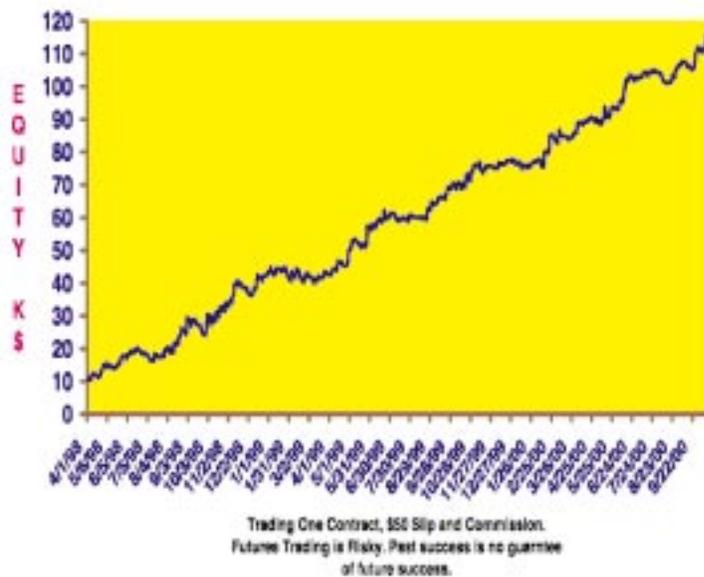

Quality work has been focused on rebuilding our website from the bottom up.

Originally, websites were just a collection of static pages. But over the past few years, new technologies have permitted the creation of dynamic, database driven websites. For some time I have been moving toward redoing my website.

Now I am making the big push. I have now created an online customer database, filled from the one we have kept for years, first in a text file, and later in an MS Access database.

This new database will be used for all sorts of things. Users will be able to change their mailing and email addresses, opt in or out of the weekly email, or make purchases online. Parts of the new website will have controlled access, authorized from the database. That will allow us to do things like put this newsletter online.

MOONTIDE ONE-A-DAY EQUITY

PEOPLE AND HAPPENINGS

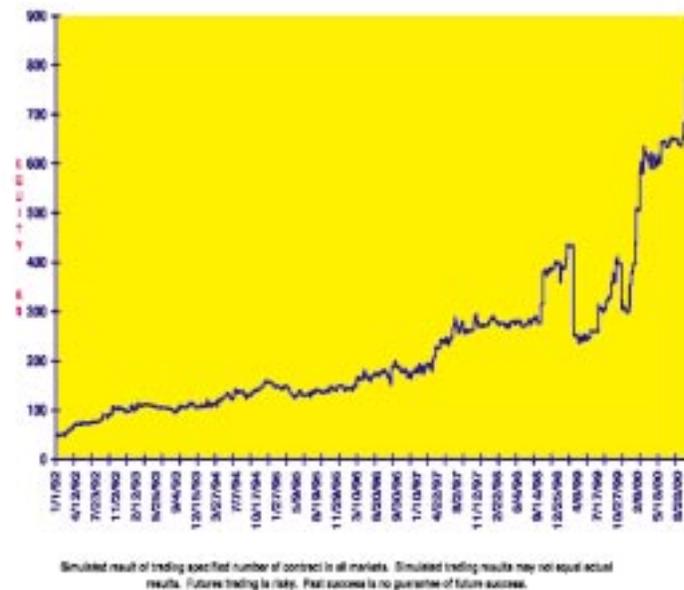

This month has been a disaster. Early in the month, my assistant, Wava, came down with pneumonia. She developed complications, and nearly didn't make it. She did, thanks to a lot of prayers. Now she has to relearn a lot of skills. She is getting rehabilitated, and hopefully will be back soon.

Now, for a short time, I can manage things on my own. But I made that really hard when I fell off the second step of a step ladder and broke my left wrist. I've been managing, but doing some things, like this newsletter, have been a challenge. And yes, both Wava and I were on XGO lows when we suffered our misfortunes.

But all things move in cycles. So this, too, will pass.
I can hardly wait.

al

HOTLINE POSITION TRADING TRACK RECORD

We did purge addresses last month. If this is a sample newsletter, you will stay on our list until purged. The date after your name tells you the last month you will receive unless you renew. **Renewals are \$240/year.** Renew now. **I do take 3 month and 6 month renewals as well.** Just pro-rate the cost. **Call 303-452-5566 with your renewal.** Visa and Mastercard taken.

The **Cash In On Chaos Newsletter** (formerly the Market AstroPhysics Newsletter) is published 12 times per year, between the 1st and the 25th of the month. Subscriptions are \$250 per year or \$300 to include subscription to the AstroDow and Astropoint timing service. We may or may not hold securities mentioned. Sources of information are believed to be reliable, but are not guaranteed. Opinions and recommendations are given with the understanding that our sophisticated investors are aware of the risks involved. Past success is no guarantee of future success. Simulated trading results may over or understate actual results. MAP Newsletter is written and published by Dr. Hans Hannula, PhD, RSA, CTA. 303-452-5566, fax 303-457-9871 MicroMedia (The Chaos Mint), Box 33071, Northglenn, CO 80233. Mastercard, Visa accepted. Hotline available daily (Chaos Trader's Email or Tomorrow's Market Email). Just \$99/Mo, billed for 3mos @ \$297, renewed automatically. Sign up at: <http://www.cashinonchaos.com/hans>

Your Electric Life, Science for a New Age

by Dr. Al Lason, Ph.D. (aka Dr. Hans Hannula)

Whether you realize it or not, you are being strongly influenced by a very powerful electrical force - the earth's electric field. This field produces currents through your body that are 250,000 times as strong as the currents that run your brain. Recognition of this fact, research, and experimentation have led former Bell Labs engineer and scientist Al Larson to a series of insights into many previously unexplained phenomena. His findings cover a wide range of topics, such as dowsing, the human aura, consciousness, bio-circuits, Feng Shui, natal astrology, stock markets, remote viewing, energy field medicine, de ja vu, dreams, and religious experiences. His own discovery of *sudden impulses* *shows how we are all connected by the field in a *Cosmic Internet**. Al provides a rational explanation of how these phenomena work through the earth's electric field, along with guidance of how this knowledge can be used to improve your own life. Do not miss this clear, concise, convincing explanation of how things work.
